

USER GUIDE

CAUTION
Please read instructions carefully before using your equipment.

Informative note pursuant to REGULATION (EU) 2016/425
Category 2. Copy of the EU declaration of conformity can be accessed on the website at <http://oneal.eu/docdownload/>

INTENDED USE
Intended use is for motorcycle and other off-road activities. Some shield® for motorcycle activities, when used and worn correctly, reduces injury risks against looted stones and debris such as those riders often encounter in off-road motocycling and in allied sports activities where these hazards may exist, and also may eventually prevent some minor laceration and abrasions. The use of the chest protector is not intended to meet the requirements of the Directive 2006/42/EC and therefore is not granted a 2nd Category Individual Protective Equipment against medium-risk products. The performances of this product have been verified by RICOTEST. Notified Body n. 0498. Via Tione 9, 37010 Parastre - Verona - Italy on the basis of a laboratory testing procedure performed following the European Standard in force: EN 14021:2003.

The essential part of a stone shield is the breast guard, which may be associated with the shoulder guards, the back guard and the biceps guards.

CE MARKING

The CE Marking on YOUR STONE SHIELD means that it has been submitted to the EU Type Approval Certification process in accordance with the requirements of the Directive 2006/42/EC and has been granted a 2nd Category Individual Protective Equipment against medium-risk products. The performances of this product have been verified by RICOTEST. Notified Body n. 0498. Via Tione 9, 37010 Parastre - Verona - Italy on the basis of a laboratory testing procedure performed following the European Standard in force: EN 14021:2003.

MARKING LABEL EXPLANATION
This marking label attached to the inner side. Below a general example of a marking label including significance of any information.

* Individual correct product information is shown on the marking label attached to the stone shield

WARNINGS

- NO PROTECTOR CAN GUARANTEE TOTAL PROTECTION!
- Do not expose the protectors to extreme temperatures. Temperature can change the impact absorption performance.
- This product is not a substitute for a helmet or chest protection AGAINST STONES & DEBRIS, such as those encountered in OFF-ROAD/ ALL TERRAIN activities.
- The company claims all responsibility for damages / consequences resulting from use (e.g. use for other activities, use of damaged products, etc.)
- This product cannot guarantee protection against direct impacts while falling down or against obstacle, against traumas caused by bending, twisting, torsions or traumas caused by extreme movements, and cannot guarantee protection against falling an object high enough to cause impacts on the chest or abdomen, and severe bending forces such as when the torso strikes on upright position.

MARKING LABEL EXPLANATION

Individual marking label similar to example on picture is attached to each protector providing technical information:

- PICTOGRAM indicating the CHEST-GIRTH range of users for whom this stoneshield is intended; The reference standard is set out under the pictogram.

Products incorporating chest protectors are equipped with protective parts which have been certified in accordance with the requirements of the technical harmonized standard EN 14021:2003 Stoneshield for off-road motocycling suited to protect riders against stones and debris'.

These protectors are specifically designed for off-road activities. They are not recommended for road use. The use of these protectors is limited to the protection of the body against stones and debris.

Select the correct size by checking the chest-girth range printed on the product marking.

The chest protector/stoneshield is permanently marked with specific information printed on a label sewn on the side part of the chest protector.

STONESHIELD

European Standard EN 14021:2003 Stoneshield for off-road motocycling suited to protect riders against stones and debris.
